

Quality Policy

Asia Metal Public Company Limited is committed to complying with the requirements of the ISO 9001:2015 Quality Management System. To align with the organization's context and strategic direction, the company has established the following quality policy:

“Focus on producing high-quality products and ensuring on-time delivery to achieve customer satisfaction through continuous improvement.”

To achieve this policy, the company has outlined the following operational guidelines:

1. Manufacture and deliver quality products that meet customer requirements and specified standards.
2. Monitor influencing factors, complaints, and feedback from **interested parties** to continuously enhance the efficiency and effectiveness of the quality management system.
3. Encourage employee participation in improving the quality of production and service systems.
4. Establish clear communication and ensure understanding of the quality policy across the organization to promote awareness.
5. Regularly review the quality policy to ensure its relevance and applicability.
6. Require each department to set objectives that align with the organization's context, strategic direction, and quality policy, implement necessary actions to achieve these objectives, and report progress to management or relevant stakeholders within specified periods for further direction and resource allocation.

This policy is announced for acknowledgment and compliance by all.

Effective Date: December 16, 2024
